This document is the informational asset of Doosan Corporation.
Thus, unauthorized access, revision, distribution and copying of this document are strictly prohibited.

Foreword

[ENGLISH]

1. APPLICATION

This parts book lists all serviceable parts for DOOSAN lift trucks model and includes chassis, mast, attachment and optional accessories.

2. LIFT TRUCK IDENTIFICATION

Lift trucks are identified with model names and serial numbers which are shown on the identification plate mounted on a prominent position (cowl or top cover) of the truck.
If the identification plate has been removed, or if the model name or serial number stamped on the identification plate is illegible, then please refer to the decal on the top cover for the model name and to the serial number stamped on the frame.
DOOSAN dealers or parts depot need this information to determine which components were included on the machine when it was assembled at the factory.

3. HOW TO ORDER PARTS

When ordering parts, your order should specify the model name, the serial number of the machine, the quantity, part number and part name of the parts which are needed.
If in doubt about the part number, please provide your dealer with a complete description of the needed item.

4. HOW TO USE THE PARTS BOOK

DOOSAN parts books include illustrations of the groups or assemblies which make up the machine.These illustrations show the standard components and attachments for each machine.
The caption under each illustration identifies the part number and name of the group or assembly shown.
Captions provide an additional information if any.
Within each illustration is a parts list identifying each serviceable part in the illustration. When a part name is indented in this list, it means that serviceable item is a part of the serviceable item under which it is indented.

5. UNNOTICED REVISION OF TRUCK

Continuing improvement and advancement of product design may cause changes to your machine which may not be included in this parts book.

6. ABBREVIATIONS

A Not part of this group
B Use as required
C Changed Part Number
D Order by the meter
E Order by the centimeter
G Order by the inch
K Link Q'ty Per Each, Required 2Ea
M Metric part
S Separate illustration
Z The part with this abbreviation is a component of an assembly and is not available independently
H Must Use Same Bearing
J This means that the part is contained in the service part kit
NS Not Service Part
DEL Deleted Item

Sales Model Information

Models ; GC20S-9 , GC25S-9 , GC30S-9, GC33S-9
Engine Type ; GCT 2.5L , Tier 3
